Google Developer Group Istanbul

2015 – 2019

board membership

FSMVU IoT

2017 – 2019

about me

I am a UI/UX Designer with 7+ years of professional experience (10 years total accumulated knowledge) in designing user-centric websites and mobile applications. Leveraging a Computer Engineering background, I produce designs that are not only aesthetically pleasing and functional but also code-friendly and easily implementable by development teams.

work experience

Atlastek/DIAS Group (09/2022 – 08/2025)

Deposit Management System (DYS) – National Scale Digital Ecosystem

- Designed the end-to-end digital ecosystem interface for a national recycling program (DYS) focused on instant deposit refunds.
- End-User Experience (Mobile & Device): Created user flows and UI for the mobile application (balance/history, notifications, maps) and designed the step-by-step guidance screens for physical deposit devices.
- Advanced Management Dashboards: Developed advanced, permission-based dashboards for key stakeholders (TÜÇA, Darphane, etc.), focusing on visualizing complex data (financial flows, device status, rule management).

Turkeyana Clinic/Extratik (02/2021 – 09/2022)

Docnmore Digital Health Platform

- Designed the interface for a global digital health platform connecting patients, doctors, and clinics.
- Core Capabilities: Defined UX/UI for provider discovery/comparison, online/in-person appointment booking, and secure video/chat consultations.

conferences

design for wearables workshop

Speaker at GDG DevFest Edirne

Edirne/Turkey – 16/12/2017

what is ux design?

Speaker at GDG DevFest Bolu

Bolu/Turkey – 25/10/2017

Altosis Information Technologies (Former) – Project Manager

 +905394104396

- Key Features: Developed user tools for medical document management, health history tracking, and prescription/reminder systems.
- Provider Solution: Designed an intuitive dashboard enabling clinics/doctors to manage appointment flow and patient profiles in real time.

Altosis Information Tech. (02/2019 – 07/2020)

- Led the end-to-end interface design (websites, admin panels, and mobile apps) for custom client solutions built on the company's proprietary BaaS platform.
- Design Ownership: Took ownership of user flows, created high-fidelity wireframes, prototypes, and responsive interfaces across diverse platforms.
- Project Coordination: Assisted in gathering business requirements, clarifying customer expectations, and managing the design revision cycle.
- Selected Clients: Designed interfaces for major brands, including Teknosa, Monster Notebook, and Türk Telekom.

Milk Lab34 (06/2016 – 05/2017)

Kidofun Mobile Application – Children's Activity Booking Platform

- Designed the user experience (UX/UI) for a mobile application enabling parents to discover and book children's activities.
- Advanced Filtering & Discovery: Created intuitive search and filtering interfaces based on age group, interest area, and location.
- Transaction Flows: Developed secure in-app payment flows, event history tracking, and planning features to simplify the booking process.
